

Klasifikasi Terkini Amphipoda

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20436287&lokasi=lokal>

Abstrak

RECENT CLASSIFICATION FOR AMPHIPODS. Classification of organisms is dynamic and always changed though time, including in Amphipods. This paper provide changes in higher-taxon of amphipods followed Lowry & Myers (2013) which Senticaudata introduced as a new subordo. This new classification no longer recognize Caprellidae as a subordo. All the changes based on phylogenetic analysis using 41 characters of Amphipods.
