Abstrak

Increasingly, we live and work in a global economy, global environment, and global society. Walk down the streets all across the country and you will enjoy ethnic diversity in the streets, neighborhoods, schools, and libraries. Serving children in libraries and schools, then, must involve multicultural programming and collection development. This new edition with 100% new content offers tools to inspire children with the rich textures, traditions, stories, pictures, and music from around the world. Different sections feature African, Caribbean, Indian, Jewish-American, Korean, Latin American, Middle Eastern, Native American, and Russian ideas designed to help you create distinctive programs for children. Each area features a short essay (often by a native) and recommended children's books (grade levels included), Web sites, videos, audiotapes, and directions for programming materials.
