

The work of play : child psychotherapy in contemporary Korea

Nahm, Sheena

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20436689&lokasi=lokal>

Abstrak

Synopsis

Sheena Nahm's study of play therapy in South Korea engages theories of transnational cultural production through a focus on circuits of professional knowledge. Her subject matter draws readers into a world where the problems of childhood stress are addressed by anxious mothers and psychological professionals, adapting, translating and transforming understandings of gender, family, and the cost/benefit of economic development. -- Laura C. Nelson, University of California, Berkeley
