

Flare berdurasi panjang dan kaitannya dengan bilangan sunspot

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20437140&lokasi=lokal>

Abstrak

In this paper we present the relationship between long duration H-alpha flare events and sunspot number during the period of 1980-2004. We counted as long duration events all those of one hour or more. It is shown that the long duration H-alpha flare events tend to trace the sunspot cycle with some anomalies
