

Looking ahead: Preparing psychologists for administrative roles in medical settings

O'Mahen, Heather A., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20437945&lokasi=lokal>

Abstrak

As psychologists increasingly pursue administrative positions, training in management and business systems becomes a pressing need. In response to this need, a unique rotation in administration offered through a predoctoral internship at a Department of Veterans Affairs Medical Center was formed. This article describes the rotation and its objectives. Although initial results from the rotation suggest it offers promise as a model of administrative training, future research assessing the longitudinal career trajectory of persons completing the rotation is needed.
