Abstrak

Postmodern movement which rose on the 1970s, has many impact on art, culture, science, education and architecture. History noted that Postmodern Architecture was one of the Postmodern Par-excellence, one of the triggers that led to a holistic movement known as Postmodern movement. Based on that historical roles of architecture in Postmodern Movement, architectural education is expected to play a significant role in Postmodern practices today. The value of Postmodernism implemented in Postmodern Architectural Pedagogy and in the philosophy of Postmodern Architecture as the content and the body of substance. The value will help the architect to become culturally aware, reviving humanistic and challenging architectural egoistic arrogance.
