

Ethics for trainers

Johnson, Jennie, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20438722&lokasi=lokal>

Abstrak

A strong ethics training program is no longer a nice to have feature for organizations. Strong ethical standards have become a business survival imperative. This issue provides a model for understanding ethics along with practical ways to raise ethics awareness in your organization. It provides baseline information and tools to make ethics development part of professional development plans for all areas of practice in your organization. A case study is provided to encourage discussion and a seven-step job aid to help you filter discussions and make the right ethical choices.
