

Facilitation basics

McCain, Donald V., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20438733&lokasi=lokal>

Abstrak

Use facilitation techniques to communicate salient concepts successfully and help ensure the transfer of learning.

Facilitation Basics details the principles of learning facilitation and how you apply them to a real-life classroom setting. You will learn how to create a learning climate, incorporate group activities, manage difficult participants, use media to support your messages, and assess end-of-program results.
