

Sustainable urban housing in China : principles and case studies for low-energy design

Glicksman, Leon R., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20438810&lokasi=lokal>

Abstrak

There is increasing attention to the need to preserve the global environment. This book summarizes research done in this area based on a number of important collaborative projects in Beijing, Shanghai and Shenzhen, China. It features case studies and recommendations for different approaches to environmentally responsive sustainable building.
