

Keanekaragaman Tumbuhan Mangrove di Taman Nasional Bali Barat

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20439504&lokasi=lokal>

Abstrak

The diversity of mangrove at West Bali National Park has not been reported completely. The exploration was conducted from 12 - 16 June, 2011 from Banyuwedang to Gilimanuk and from Gilimanuk to Summersari-Melaya mangrove forests. The result showed that 18 families consist of 21 genera and 28 mangrove species were recorded at West Bali National Park, these are 11,5% of the Indonesian mangroves.
