ABSTRAK

Program Inabah adalah satu program yang bertujuan untuk merawat dan memulihkan peserta penagih dadah melalui kaedah spiritual. Program ini dilaksanakan sejak tahun 1985, dan telah melalui beberapa fasa perbaikan. Pusat-pusat Inabah ini beroperasi secara sah di sisi undang-undang dengan bemaung di bawah PEMADAM. Makalah ini bertujuan untuk mengenal pasti program rawatan dan pemulihan dadah dari aspek implementasi program khususnya tentang program rawatan dan pemulihan program. Kajian ini menggunakan rekod dan laporan daripada Inabah selain pemerhatian serta temu bual mendalam dengan peserta dan pengerusi Inabah. Penilaian mendapati beberapa penemuan menarik. Pertama, garis panduan bagi pelaksanaan program Inabah telah diikuti oleh pelaksana di seluruh cawangan pondok Inabah. Kedua, cara peserta dalam memanfaatkan kaedah rawatan dan pemulihan yang dijalankan. Ketiga, mengenal pasti implementasi kaedah rawatan dan pemulihan yang diselesaikan melalui pendekatan kerohanian yang digunakan bagi memulihkan orang-orang yang terlihat dengan penagihan dadah. Implementasi program Inabah menunjukkan satu prestasi yang berjaya melaksanakan program rawatan dan pemulihan temtamanya dari segi strategi program dalam usaha menangani masalah dadah di Malaysia

ABSTRACT

Inabah Program is a program which aims to treat and rehabilitate drug addicts from physical and spiritual aspects through spiritual methods. The program was implemented in 1985, and has gone through several phases of rectification. The Inabah centers are operating legally in terms of the law under PEMADAM. This paper aims to identify drug treatments and rehabilitation programs in terms of the implementation of the treatment and rehabilitation program. This study involves the records and reports from other Inabah as well as observations and in-depth interviews with participants and chairman of Inabah. The findings revealed some interesting discoveries. Firstly, the guidelines for the implementation of the program was followed by the implementation of Inabah at all branches. Secondly, the profile of participants in the benefit of treatment and recovery methods have been performed. Thirdly, identify the implementation methods of treatment and rehabilitation solved through spiritual approach used in the rehabilitation of persons who are involved with drug addiction. The implementation of Inabah program showed a successful performance on treatment programs, particularly in terms of program strategies that can solve the drug problems in Malaysia.
