

Global governance dalam mekanisme perdagangan internasional : fair trade

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20439760&lokasi=lokal>

Abstrak

Global governance and fair trade are two highly debated concepts in the study of international relations. The shifting of the leading role within world politics from state centric to non-state centric has altered this analysis. The demand for global governance therefore becomes essential to maintain the global cooperation among the actors.
