

CI/SfB construction indexing manual 1976

Ray-Jones, Alan, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20439839&lokasi=lokal>

Abstrak

Book is already used for the arrangement of most office libraries and for product information in the UK. Research work carried out by the building research establishment has shown that the system can provide a satisfactory means of structuring sets of working drawings. It is also used for the arrangement of the national building specification, and is aligned closely with the standard form of cost analysis.
