

Course design made easy : instructional systems development

Piskurich, George M., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20441212&lokasi=lokal>

Abstrak

You have been tasked with your first course design job. But what exactly is course design? Although designing a course could easily seem overwhelming, this issue of Infoline will provide you with all the necessary details in a simple, easy-to-follow, five-step process. You will find application tools to create course objectives, a course description, and a clear project plan.
