

Build credibility for the training function: managing the learning function

Domenick, Kate, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20441225&lokasi=lokal>

Abstrak

Training assumes a business-critical role in organizations. Ensuring that the organization-at-large understands and perceives the value of training is critical to the future success of both the learning function and business entity. This issue helps you improve the credibility and perceived value of training within an organization. Included is a value, impact, and perception survey to help you measure critical areas of the organization with regard to training.
