

Beyond learning objectives: develop measurable objectives that link to the bottom line

Phillips, Jack J., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20441338&lokasi=lokal>

Abstrak

A learning objective is a statement that describes expected outcomes of a learning event. A seemingly simple concept, it is extremely important in the process of developing effective learning programs. This book links learning objectives to program return on investment (ROI).
