

Journal of HUMAS SETTLEMENTS

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20441398&lokasi=lokal>

Abstrak

Bandung City, a big city in West Java Province, has been developed to be a tertiary urban function. A proliferation of migrants in Bandung causes a sharp increase in number of informal traders, job seekers, homeless and slums, and insufficient urban services. One of the most severe problems is the gap between demand and supply as well as the ability to maintain existing house.
