

Where we stand: a surprising look at the real state of our planet

Garte, Seymour, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20441429&lokasi=lokal>

Abstrak

Global warming, new epidemics, and the destruction of natural resources have all made the future of the planet seem increasingly dire. But the real truth, according to respected scientist Dr. Seymour Garte, is that the environment is actually in better shape than we have been led to believe.
