Linking research to practice: strengthening ICT for development research capacity in Asia

Deskripsi Lengkap:

Abstrak

Information and communication technologies have long promised to provide quality education, improve healthcare, allow open government, and solve environmental issues. To realize this potential and influence policy-making and programme design, the Singapore Internet Research Centre, supported by the IDRC, created an innovative research capacity-building programme, SIRCA. The programme supports interdisciplinary ICTD research through the nurturing of research relationships.
