

Mathematical modelling: classroom notes in applied mathematics

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20442921&lokasi=lokal>

Abstrak

Designed for classroom use, this book contains short, self-contained mathematical models of problems in the physical, mathematical, and biological sciences first published in the Classroom Notes section of the SIAM Review from 1975-1985. The problems provide an ideal way to make complex subject matter more accessible to the student through the use of concrete applications. Each section has extensive supplementary references provided by the editor from his years of experience with mathematical modelling.
