Abstrak

Penelitian ini melihat peristiwa tewasnya Salim Kancil dan konflik terkait pertambangan pasir illegal Golongan C yang terjadi di Desa Selok Awar – Awar, Kecamatan Pasirian, Kabupaten Lumajang, Jawa Timur sebagai dinamika organized crime. Penelitian kualitatif ini menggunakan ciri organized crime oleh Abadinsky 2012, dengan pengumpulan data melalui wawancara, studi dokumen dan literatur. Hasil studi ini, berdasarkan ciri organized crime oleh Abadinsky 2012, memenuhi unsur hierachial, has no political goal dan exhibits a willingness to use illegal violence. Namun, meski tidak memenuhi seluruh ciri organized crime oleh Abadinsky 2012, konflik pertambangan pasir illegal Golongan C di Desa Selok Awar – Awar yang menyebabkan tewasnya Salim Kancil dapat dipahami sebagai bentuk organized crime. Sehingga, diperlukan langkah – langkah teknis dan strategis dari stakeholders pertambangan di Lumajang terkait pertambangan pasir illegal.

.....

Current study seeks to examine the death of Salim Kancil as a result of conflicts related to Illegal Class C Sand Mining in the village Selok Awar Awar, Pasirian, Lumajang, East Java as the dynamics of organized crime. Current qualitative study, examine characteristics of organized crime as stated by Abadinsky 2012 while utilizing interviews, document and literature research in its data collecting. Result suggest that certain features organized crime by Abadinsky 2012, such as hierachial, has no political goal and exhibits a willingness to use illegal violence fulfilled. While other features of organized crime by Abadinsky 2012 not proven, however, conflicts caused by illegal Class C sand mining in the village Selok Awar Awar causing the death of Salim can be understood as a form of organized crime. Thus, certain technical and strategic measures must be taken by mining stakeholders in Lumajang, especially sand mining stakeholders.
