

Forests and global change

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20448039&lokasi=lokal>

Abstrak

Presenting recent research across temperate and tropical ecosystems, this volume synthesises the numerous ways that forests are responding to global change and includes perspectives on: the role of forests in the global carbon and energy budgets, historical patterns of forest change and diversification, contemporary mechanisms of community assembly and implications of underlying drivers of global change, and the ways in which forests supply ecosystem services that support human lives
