Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20448063&lokasi=lokal>

Abstrak

Contents: 1. Systems of linear equations and matrices --

2. Determinants --

3. Euclidian vector spaces --

4. General vector spaces --

5. Eignvalues and eigenvectors --

6. Inner product spaces --

7. Diagonalization and quadratic forms --

8. General linear transformations --

9. Numerical methods.
