

Annual review of network management and security, volume 2

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20448096&lokasi=lokal>

Abstrak

Contents :

- Contents by Author
- University Program Sponsors
- Executive Perspectives
- The RBOCs Are Going to Win the High-Speed Access Wars
- GPON: The Next Big Thing in Optical Access Networks
- Conceptual Barriers for Effective Network Design
- Adaptive COTS OSSs: Introduction and Technologies
- Making Innovation Happen
- Life Organization, or How Communication Providers Can Become Co-Managers with the Customer
- Original Design and Manufacturing Services: Selecting the Right Partner
- Assurance: A Past, Present, and Future Perspective
- Network Management
- Beyond Access: Raising the Volume of Information in a Cluttered Environment
- Performance Evaluation of Analog Fiber-Optic Links
- Equivalence of Fast Circuit Switching and Connection-Oriented Packet Switching
- Strategy Development for the Information Economy
- Evolution Toward Converged Services and Networks
- The Seventh Strategy for Fixed-Line Carriers
- Transforming Access Networks for Success and Profitability in the 21st Century
- Czech DWDM National Research Network: A Case Study
- Important Mechanisms Available Today for Bridging the Digital Divide by Bringing Connectivity to Underserved Areas of the World
- Building Networks that Create Value
- Next-Generation Services
- Road Maps for Next-Generation Data Transport Networks
- Information Revolution: The Next Generation
- Advanced Video Encoders in Next-Generation Television
- Next-Generation Residential Gateway
- Security
- Review and Analysis of WLAN Security Attacks and Solutions
- An Architecture for Enhancing Internet Control-Plane Security
- Telecommunications
- The Open Telecommunications Services Model

- How Telecom Providers Are Using Advanced Technologies Today
- The Greening of Telecom
- Development Trends of Telecom Bearer Networks
- A Policy-Driven Methodology for Managing Telecommunication Networks
- Application of the Systems Approach to Telecommunications Strategic Management
- Acronym Guide
