

The stability of dynamical systems

La Salle, Joseph P., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20448963&lokasi=lokal>

Abstrak

An introduction to aspects of the theory of dynamical systems based on extensions of Liapunov's direct method. The main ideas and structure for the theory are presented for difference equations and for the analogous theory for ordinary differential equations and retarded functional differential equations. The latest results on invariance properties for non-autonomous time-varying systems processes are presented for difference and differential equations.
