Abstrak

Implementation of security and peace order and protection of the people especially those who are within the settlement is the duty and responsibility of member units of community protection (Satlinmas) and what happens when members Satlinmas in carrying out its duties and functions not supported by the human resources of adequate quality and quantity so the expectations and desires of the community to get security and peace order and public protection are not met in full and result in (Satlinmas) presence can not be felt by the community. The method used in this study using qualitative research with descriptive analysis the data obtained through documentation observation and interviews sample locations were selected based on purposive sample of Cilacap. Cilacap is a district that has accommodated the institutional linmas the organizational structure of civil service police unit and a barometer for other regions in the implementation of the enforcement of local regulations. The purpose of study wanted to know how far Satlinmas can act in accordance with its duties and functions. Research results that Satlinmas role in organizing disaster management the handling of security peace and order protection of the public at the district level are generally already be implemented but at the neighborhood level and harmonious citizen tasks and functions are yet to be implemented optimally.
