

Functional neurology for practitioners of manual medicine

Beck, Randy W.

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20449566&lokasi=lokal>

Abstrak

Utilizing our understanding of how the nervous system works in the treatment of a variety of clinical conditions, this title takes the readers from the embryonic beginnings of the nervous system, through the biochemistry of receptor activation and on to the functional systems of the nervous system.
