

Numerical analysis of spectral methods: theory and applications

Gottlieb, David, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20451122&lokasi=lokal>

Abstrak

A unified discussion of the formulation and analysis of special methods of mixed initial boundary-value problems. The focus is on the development of a new mathematical theory that explains why and how well spectral methods work. Included are interesting extensions of the classical numerical analysis.
