

Benteng Van Den Bosch, Ngawi: temuan artefaktual sebagai cerminan alat-alat kebutuhan sehari-hari / Muhammad Chawari

Muhammad Chawari, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20451963&lokasi=lokal>

Abstrak

Research in Fort Van den Bosch in Ngawi, East Java Province brings about data on aspects of the buildings and artifacts that accompany it. Regarding the artifacts a number of fragments of pottery, metal, ceramics, glass, animal bones, and shells have been found. They were objects of everyday appliances, except for bones and shells. Those artefacts could show the activities of the fort's inhabitants in the past.
