Nama : Mahardhika Setya Nugroho  
Program Studi : Kajian Administrasi Rumah Sakit  
Judul : Analisis Praktik Cuci Tangan Perawat Ciputra Hospital CitraGarden Jakarta Tahun 2017  
Praktik cuci tangan merupakan faktor kunci dalam menurunkan dan mencegah HealthCare Associated Infections HCAI . Rendahnya praktik cuci tangan pada perawat menyebabkan HCAI di Ciputra Hospital CitraGarden Jakarta masih cukup tinggi. Penelitian ini bertujuan mengidentifikasi variabel yang berpengaruh dalam praktik cuci tangan sesuai standar WHO di rumah sakit tersebut, menggunakan desain potong lintang yang dilanjutkan dengan pendekatan kualitatif. Hasil penelitian menunjukkan praktik cuci tangan sesuai standar WHO baik 88,6 dan pengetahuan merupakan variabel yang paling dominan berkontribusi terhadap pelaksanaan praktik cuci tangan sesuai standar WHO. Disarankan untuk meningkatkan pengetahuan dengan cara memberikan pelatihan yang spesifik terkait praktik cuci tangan.  
Kata Kunci : Praktik Cuci Tangan Perawat, HealthCare Associated Infections HCAI

<b>ABSTRACT</b><br>

Name Mahardhika Setya Nugroho  
Study Program Hospital Administration Program  
Title Analysis of Hand Washing Practice Among Nurses at Ciputra CitraGarden Hospital Jakarta in 2017.  
Hand washing practice is one of the key factors to decrease and prevent HealthCare Associated Infections HCAI . Poor hand washing practice among nurses causing HCAI rates are still high. This study aimed to identify the variables that are correlated with WHO's hand washing practice at Ciputra CitraGarden Hospital Jakarta in 2017. The design of the study was cross sectional, using quantitative approach, then followed by qualitative approach. The result showed that WHO's hand washing practice was good 88,6 and "Knowledge" is the most dominant factor contributed to the implementation of WHO's hand washing practice. It is suggested to gain more "Knowledge" on how to give trainings, especially with regards to hand washing practice.  
Keywords Hand washing practice among nurse, HealthCare Associated Infections HCAI .
