Abstrak

**ABSTRAK
**

Penelitian ini merupakan studi kuantitatif yang bertujuan untuk mengetahui hubungan antara religiositas Islam dan intoleransi politik dan efek moderasi kepercayaan politik terhadap hubungan variabel tersebut. Intoleransi politik diukur dengan Political Intolerance Scale yang dikembangkan oleh Sullivan, Marcus, Feldman, Piereson 1981 , religiositas Islam diukur dengan Muslim Religiosity Scale yang disusun oleh El Menouar 2014 , dan kepercayaan politik diukur dengan Citizen Trust in Government Organizations Scale yang dikembangkan oleh Grimmelikhuijsen Knies 2015 . Responden penelitian ini merupakan 841 orang mahasiswa di Indonesia yang beragama Islam. Hasil penelitian ini menunjukkan bahwa religiositas Islam berkorelasi positif dan signifikan dengan intoleransi politik. Sementara kepercayaan politik tidak berkontribusi menjadi moderator terhadap hubungan religiositas Islam dan intoleransi politik.

**ABSTRAK
**

This quantitative study was aimed to examine the correlation between Muslim religiosity and political intolerance whereas political trust as moderator variable towards its correlation. Political intolerance was measured by Political Intolerance Scale which developed by Sullivan, Marcus, Feldman, Piereson 1981 , Muslim religiosity was measured by Muslim Religiosity Scale which developed by El Menouar 2014 , and political trust was measured by Citizen Trust in Government Organizations Scale which developed by Grimmelikhuijsen Knies 2015 . Respondents of this study were 841 Moslem college students. Results indicated that there is significant positive correlation between Muslim religiosity and political intolerance. Meanwhile, political trust was not contributing as moderator variable towards the correlation between Muslim religiosity and political intolerance.
