Abstrak

ABSTRAK

Penelitian ini bertujuan untuk melihat peran dari country governance dan faktor internal terhadap kinerja perbankan syariah. Penelitian ini menggunakan protabilitas dan risiko sebagai indikator kinerja perbankan. Country governance diukur menggunakan political stability dan regulatory quality sedangkan faktor internal berupa ukuran, kapitalisasi, dan likuiditas. Penelitian ini menggunakan analisis regresi. Hasil penelitian ini menunjukkan bahwa terdapat pengaruh negatif country governance terhadap kinerja perbankan. Ukuran, kapitalisasi, dan likuiditas memberikan pengaruh positif signifikan pada kinerja perbankan.

ABSTRACT

This paper aims to examine the role of country governance and bank internal factor on Islamic Banking. This paper uses profitability and risk as an indicator of bank performance. Country governance measured by political stability and regulatory quality while internal factor measured by size, capitalization, and liquidity. Research is conducted with regression analysis. The results show that country governance has significant negative relationship with bank performance. Size, capitalization, and liquidity have significant positive relationship with bank performance.
