Abstrak

Implementor utama keterbukaan informasi publik di Kementerian Sekretariat Negara adalah pejabat pengelola informasi dan dokumentasi PPID yang berasal dari seluruh satuan kerja, Badan Layanan Umum, dan lembaga kepresidenan lain di lingkungan Kemensetneg. Penelitian ini bertujuan untuk mendeskripsikan koordinasi PPID di lingkungan Kemensetneg dalam implementasi keterbukaan informasi publik. Penelitian dilakukan dengan pendekatan kualitatif, dengan metode pengumpulan data berupa wawancara mendalam, studi literatur, dan observasi.

Hasil penelitian menunjukkan bahwa koordinasi lebih banyak dilaksanakan ketika PPID menerima permohonan informasi dari masyarakat. Permasalahan dalam koordinasi berasal dari internal berupa pemahaman mengenai urgensi keterbukaan informasi, dan eksternal berupa ketersediaan perencanaan kerja dan sistem informasi.

.....The main implementer of public information disclosure in the Ministry of State Secretariat are the Information and Documentation Management Officer PPID from all working units, Public Service Agency, and other Presidential agencies within Ministry of State Secretariat. This study aims to describe the coordination of PPID within the Ministry of State Secretariat about the implementation of public information disclosure. The research was conducted with qualitative approach, with data collection method in the form of in depth interview, literature study, and observation.

The results show that the coordination was carried out more frequently when PPID receives requests for information from the public. The problems of coordination came from the internal in the form of an understanding of the urgency of information disclosure, and external in the form of the availability of work planning and information systems.
