Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20459815&lokasi=lokal>

Abstrak

Apotek merupakan sarana pelayanan kefarmasian tempat apoteker melakukan praktik kefarmasian. Pelaksanaan Praktik Kerja Profesi Apoteker di Apotek Kimia Farma No. 389 bertujuan untuk mendapatkan gambaran secara nyata terhadap tugas dan tanggung jawab apa saja yang dilakukan oleh Apoteker di apotek, serta mendapatkan pengetahuan dan pemahaman mengenai standar pelayanan kefarmasian yang dilakukan di Apotek. Melalui Praktik Kerja Profesi ini, mahasiswa dapat menerapkan ilmu yang telah dipelajari dengan melakukan kegiatan pelayanan kefarmasian seperti penyiapan obat, pemberian informasi obat, dan konseling. Selain itu melalui tugas khusus, mahasiswa dapat melakukan pelayanan kefarmasian di rumah. Praktik Kerja Profesi dilakukan selama empat minggu pada bulan Februari 2017.

.....

Pharmacy is one of facilities care unit where pharmacist do pharmacy practice. Implementation of Pharmacist Profession Practices in Kimia Farma No. 389 Pharmacy was intended to gained insight into the role and responsibilities of pharmacist in pharmacy, also to have knowledge and understanding about standard of pharmaceutical care. Through the internship, students were able to put skills learnt on the degree course into practice through assisting in the dispensing of drugs, provision of drug information, and patient counseling. Futhermore, a specific assignment has been given to the student to do home pharmacy care. The internship was performed for four weeks in February 2017.
