

Praktek kerja profesi apoteker di Rumah Sakit Anak dan Bunda Harapan Kita periode bulan Januari-Februari 2017 = Pharmacist professional practice at child and mother Harapan Kita Hospital in January-February 2017

Ingrid Fortunata, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20459832&lokasi=lokal>

Abstrak

Kegiatan praktek kerja profesi di rumah sakit dilakukan agar calon apoteker dapat mampu memahami peran, tugas, dan tanggung jawab apoteker di rumah sakit sesuai dengan standar pelayanan kefarmasian di rumah sakit sebagai tempat pelayanan kesehatan di masyarakat. Calon apoteker dapat belajar secara langsung mengenai pengelolaan sediaan farmasi maupun pelayanan farmasi klinis yang berlangsung di rumah sakit. Analisa drug related problem dilakukan sebagai tugas khusus untuk dapat menganalisa terapi yang diberikan kepada bayi prematur di ruangan NICU agar dapat menjadi masukan sehingga tujuan terapi dapat tercapai.

.....

Professional work practices in hospital is conducted so that the candidate of apothecary can understand the role, duties, and responsibilities of pharmacist in hospital, in accordance with the standards of pharmaceutical services in hospital as the health care center in the community. Pharmacist can learn directly about the management of pharmaceutical preparations and clinical pharmacy services that take place in the hospital. Drug related problem analysis is performed as a special task to analyze the therapy that being given to premature infants in the NICU room so that therapeutic objectives can be achieved.
