**Abstrak**

Peningkatan pelayanan kesehatan selalu diupayakan oleh Pemerintah mengingat semakin berkembangnya ilmu pengetahuan dan teknologi dalam dunia kesehatan. Upaya untuk meningkatkan pelayanan kesehatan dapat melalui pelayanan kefarmasian yang professional. Apoteker memiliki peran dan tanggung jawab dalam mendukung tercapainya sasaran program kesehatan, terutama dibidang kefarmasian. Melalui kegiatan Praktek Kerja Profesi Apoteker PKPA ini diharapkan calon apoteker dapat lebih memahami peran dan tugas Apoteker dalam melakukan pekerjaan kefarmasian di Direktorat Jenderal Kefarmasian dan Alat Kesehatan Kementerian Kesehatan Republik Indonesia, khususnya Direktorat Produksi dan Distribusi Kefarmasian. Praktek kerja profesi ini dilaksanakan mulai dari tanggal 22 Mei ndash; 2 Juni 2017. Berdasarkan PKPA yang telah dilakukan, Direktorat Produksi dan Distribusi Kefarmasian merupakan tempat bagi seorang apoteker untuk dapat menjalankan profesi apoteker yang berkaitan dengan kepentingan perikemanusiaan terutama dalam bidang kesehatan. Apoteker di lingkup pemerintahan, khususnya Direktorat Produksi dan Distribusi Kefarmasian dapat memberikan perannya di bidang regulasi, penyusunan norma, standar, prosedur dan kriteria, serta pemberian bimbingan yang berkaitan dengan produk dan distribusi produk farmasi, kosmetika dan makanan.

.....

Improving health services is always strived by the government given the growing development of science and technology in the world of health. Efforts to improve health services can be through professional pharmaceutical services. Pharmacists have a role and responsibility in supporting the achievement of health program targets, especially in the field of pharmaceuticals. Through this internship activity, the pharmacist candidate can better understand the role and duty of pharmacist in performing pharmaceutical work in Directorate General of Pharmaceutical and Medical Device Ministry of Health of the Republic of Indonesia, especially the Directorate of Pharmaceutical Production and Distribution. This internship is carried out from May 22nd to June 2nd, 2017. Based on internship that has been done, the Directorate of Pharmaceutical Production and Distribution is a place for a pharmacist to be able to run the pharmacist profession related to the interests of humanity, especially in the field of health. Pharmacists in the scope of government, especially the Directorate of Pharmaceutical Production and Distribution can provide its role in the field of regulation, compilation of norms, standards, procedures and criteria, as well as providing guidance related to the product and distribution of pharmaceutical products, cosmetics and foods.
