Abstrak

ABSTRAK

Kementerian Kesehatan Republik Indonesia memiliki keberadaan penting dalam upaya pembangunan kesehatan yaitu perumusan, penetapan dan pelaksanaan kebijakan di bidang kesehatan. Direktorat Jenderal Kefarmasian dan Alat Kesehatan yang bertanggung jawab di bawah Kementerian Kesehatan RI melaksanakan peran dalam upaya peningkatan kesehatan melalui pelayanan kefarmasian. Peran apoteker diwujudkan melalui tugas dan fungsinya dalam penyusunan regulasi di bidang kefarmasian. Pelaksanaan Praktek Kerja Profesi Apoteker PKPA di Direktorat Jenderal Kefarmasian dan Alat Kesehatan merupakan salah satu sarana bagi calon Apoteker mengerti peranan, tugas dan tanggung jawab Apoteker di instansi pemerintahan. Selain itu, calon apoteker diharapkan memiliki pengetahuan dan pengalaman praktis serta memiliki gambaran nyata tentang permasalahan pekerjaan kefarmasian di instansi pemerintahan. Calon Apoteker juga diberikan tugas khusus yang berjudul "Pengkajian Program Kerja Penyusunan Formularium Obat dan Perbekalan Kesehatan pada Pelayanan Kesehatan Haji di Subdirektorat Seleksi Obat dan Alat Kesehatan Direktorat Pelayanan Kefarmasian". Tugas khusus ini bertujuan agar calon apoteker dapat mengetahui kesesuaian antara kegiatan penyusunan Formularium Obat dan Perbekalan Kesehatan pada Pelayanan Kesehatan Haji sebagai program kerja Subdirektorat Seleksi Obat dan Alat Kesehatan dengan Peraturan Menteri Kesehatan RI No. 64 Tahun 2015 tentang Organisasi dan Tata Kerja Kementerian Kesehatan terkait tugas pokok dan fungsi Subdirektorat Seleksi Obat dan Alat Kesehatan Direktorat Pelayanan Kefarmasian.
