

DeJong's: the neurologic examination

Campbell, William Wesley, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20463877&lokasi=lokal>

Abstrak

Dejong's The Neurological Examination, 7th edition, offers practitioners and residents of Neurology an in-depth discussion of neurologic exams. Without abandoning classic concepts and science, this definitive source on neurologic examination techniques has been streamlined and updated. The text integrates details of neuroanatomy and clinical diagnosis in an easy-to-read format. Anatomical and exam illustrations help ensure proper technique. Plus, illustrative cases and tables summarize differentials and list clinical findings.
