Abstrak

Getting involved in medical and biomedical research through necessity or personal choice can be a testing experience. Each step of the process brings its own challenges, from liaising with supervisors, to the lack of opportunities to promote completed research. This brand new How to provides a complete guide to the process: from the planning stages, to execution, write-up, preparation for the viva examination, and how to maximise the impact of your research. It ensures you get the most out of the experience, both in terms of personal development and academic achievement, and
