

Qualitative psychology: a practical guide to research methods

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20465080&lokasi=lokal>

Abstrak

Undertaking qualitative research in psychology can seem like a daunting and complex process, especially when it comes to selecting the most appropriate approach for your project or assignment. This book, written and edited by a world-leading group of academics and researchers, offers an accessible, critical and practical way into qualitative research in psychology. Each chapter provides a detailed, step-by-step guide to using a qualitative research method - from Conversation analysis or Focus groups to Interpretative phenomenological analysis or Narrative psychology. New to this third edition: A chapter on Thematic analysis, a section on how to choose and select the most appropriate method for your project.
