ABSTRACT

Bogor Botanical Gardens (836) is one of the most popular tourist destinations sites in the world Established by C.G.C. Reinwardt on May 18, 1817, which covered an area of 87 hectares, the garden has many attraction to offer. The plants diversity richness, the beauty of the landscape architect, the theme park and the historic buildings provide a good source of information for educational tour for visitors. An effort to improve tourism support facilities should always be prioritized in order to reach its mission as an environment education based destination area.
