**ABSTRAK
**

Penelitian ini menganalisis pengaruh perdagangan internasional terhadap daya tawar pekerja di Indonesia dengan sampel lebih dari 40.000 perusahaan pada industri besar dan sedang selama periode 2006-2015. Analisis penelitian berdasarkan level nasional sektor dan level nasional provinsi. Hasil penelitian berdasarkan level nasional sektor menunjukkan ekspor tidak mempengaruhi daya tawar pekerja, sedangkan impor menurunkan daya tawar pekerja. Analisis lain berdasarkan level nasional provinsi menunjukkan ekspor tidak mempengaruhi daya tawar pekerja, tetapi impor meningkatkan daya tawar pekerja. Kata kunci : perdagangan internasional, daya tawar pekerja, Indonesia

**ABSTRACT
**

This study analyzes the effect of international trade on the workers' bargaining power in Indonesia with a sample more than 40,000 firms in the manufacturing industry during period 2006-2015. The analysis of study based on national sector level and national province level. The results of analysis by national sector level showed that export did not affect workers' bargaining power, while import decrease workers' bargaining power. Another analysis by national province level showed that export did not affect workers' bargaining power, but import will increase workers' bargaining power
