Megawati, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20478418&lokasi=lokal>

Abstrak

Apotek merupakan tempat dilaksanakannya praktik kefarmasian oleh Apoteker. Dalam melaksanakan praktik kefarmasian, Apoteker diwajibkan untuk mampu mengelola sediaan farmasi, alat kesehatan, dan bahan medis habis pakai serta memberikan pelayanan farmasi klinik sesuai dengan standar pelayanan kefarmasian di Apotek. Melihat urgensi tersebut, calon Apoteker diharapkan dapat memahami tugas dan tanggung jawab Apoteker dalam mengelola Apotek serta memiliki pengetahuan dan ketrampilan dalam melaksanakan praktik kefarmasian di Apotek sesuai peraturan perundang-undangan dan etika yang berlaku. Apotek Kimia Farma No. 375 Depok dalam hal ini memberikan kesempatan kepada calon Apoteker untuk melakukan praktik kerja profesi sehingga calon Apoteker mendapatkan wawasan, pengetahuan, ketrampilan, dan pengalaman praktis dalam melaksanakan praktik kefarmasian di Apotek. Dalam praktik kerja ini juga dilaksanakan tugas khusus yaitu analisis resep pasien dengan penyakit hipertensi dengan tujuan agar calon Apoteker dapat menganalisis resep dan menentukan kerasionalan obat yang diresepkan pada resep pasien dengan penyakit hipertensi di Apotek Kimia Farma No. 375 Depok.

.....

Pharmacy is a place where a pharmacist does pharmaceutical practice. In conducting pharmaceutical practice, pharmacist is not only obligated to have the ability to manage pharmaceutical preparations and medical diagnostic and disposable devices, but also obligated to provide clinical pharmacy services based on pharmaceutical practice standard. Based on the importance of pharmacist's roles in the pharmacy, pharmacist candidates are expected to understand pharmacist's duties and responsibilities to manage the pharmacy as well as having the knowledges and skills in carrying out the pharmaceutical practice in pharmacy based on current laws and ethics. In this term, Apotek Kimia Farma No. 375 Depok provides the opportunity for pharmacist candidates to do professional practice in order to obtain the insights, knowledges, skills, and professional experiences in carrying out the pharmaceutical practice in pharmacy. Not only do the professional practice, pharmacist candidate also do the special assignment in this session, that is prescriptions analysis for the patient with hypertension disease in Apotek Kimia Farma No. 375 Depok. The special assignment is aimed to train the pharmacist candidate to have the ability to analyze the prescriptions and to decide its rasionality.
