Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20486884&lokasi=lokal>

Abstrak

Pedagang Besar Farmasi (PBF) dan Penyalur Alat Kesehatan (PAK) wajib menerapkan Cara Distribusi Obat yang Baik dan Cara Distribusi Alat Kesehatan yang Baik (CDAKB). CDOB dan CDAKB mengatur berbagai aspek penting yang berperan dalam menjamin mutu obat di sepanjang jalur distribusi. Praktik kerja profesi di PT Kimia Farma Trading and Distribution Cabang Bandung bertujuan untuk mengetahui peran dan tanggung jawab Apoteker di PBF dan PAK serta mengidentifikasi penerapan CDOB dan CDAKB. PT Kimia Farma Trading and Distribution Cabang Bandung memberikan kesempatan pada calon apoteker untuk melaksanakan praktik kerja profesi guna mendapat pengetahuan, keterampilan, dan pengalaman praktis di fasilitas distribusi atau Penyaluran Sediaan Farmasi.

.....

Pharmaceutical distributors and medical device distributors are obliged to apply Good Distribution Practice (GDP) and Good Distribution Practice for Medical Devices (GDPM). GDP and GDPM regulate various important aspects in ensuring the quality of medicines. Apothecary internship program at PT Kimia Farma Trading and Distribution Cabang Bandung on October 2018 aimed to figure out the roles and responsibilities of the apothecary in pharmaceutical distributors and medical device distributors and to identify the application of Good Distribution Practice (GDP) and Good Distribution Practice for Medical Devices (GDPM) in Pharmaceutical distributors and medical device distributors. PT. Kimia Farma Trading and Distribution Cabang Bandung provide opportunities for prospective pharmacists to carry out professional work practices in order to gain the knowledge, skills, and practical experience in the pharmaceutical distributors and medical device distributors.
