

The neuroscience of learning and development: enhancing creativity, compassion, critical thinking, and peace in higher education

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20488222&lokasi=lokal>

Abstrak

Starting from the premise that our current linear, course-based, educational practices are frequently at odds with how our neurological system facilitates learning and personal development, the authors set out an alternative model that emphasizes a holistic approach to education that integrates meditative inquiry practice with s.
