Abstrak

"Children's Play looks at the many facets of play and how it develops from infancy through late childhood. Authors W. George Scarlett, Sophie Naudeau, Dorothy Salonijs-Pasternak, and Iris Ponte take a broad approach to examining how children play by including a wide variety of types of play, play settings, and play media. The book also discusses major revolutions in the way today's children play, including changes in organized youth sports, children's humor, and electronic play. Children's Play addresses diversity throughout the text and explores play on the topics of gender, disabilities, socioeconomic class, and culture." "Children's Play is an excellent textbook for advanced undergraduate courses on child behavior in the areas of Psychology, Human Development and Family Studies, Education, Early Childhood Education, and Educational Psychology. It is also a useful resource for professionals already working with children including preschool, elementary, and junior high school teachers, daycare workers, and related fields."--BOOK JACKET.
