

Pembuatan situs berita daring olahraga bolakampus.com = Making online sport news site bolakampus.com

Edo Juvano, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20491424&lokasi=lokal>

Abstrak

Saat ini, banyak sekali media baik cetak mau pun daring yang memberitakan tentang olahraga, namun sangat sedikit yang menulis berita olahraga tingkat kampus. Biasanya, beritaberita seputar event olahraga tingkat kampus hanya disajikan sebagai selingan dari berita olahraga internasional maupun nasional yang levelnya sudah professional. Belum ada media olahraga yang khusus memberitakan tentang olahraga kampus khususnya sepakbola dan futsal secara utuh. Sebagai salah satu olahraga yang paling banyak diminati masyarakat, tentu dibutuhkan info terkait sepakbola maupun futsal walaupun hanya setingkat kampus, seperti info event sepakbola atau futsal, info pemain (dari lingkungan kampus), prestasi mahasiswa di bidang olahraga sepak bola dan futsal, perlengkapan sepak bola dan futsal, dan tim sepakbola dan futsal (dari lingkungan kampus). Terlebih lagi remaja sekarang merupakan generasi millenial yang sangat tergantung dengan internet, semakin mudah mereka untuk mengakses informasi yang mereka butuhkan.

Bagian.

.....At present, there are a lot of good print and online media that preach about sports, but very few write campus-level sports news. Usually, news about campus-level sports events is only presented as a distraction from international and national sports news whose levels are professional. There is no sports media that specifically reports on campus sports, especially football and futsal as a whole. As one of the most popular sports of the community, of course, it requires information related to football and futsal, even though it is only at the campus level, such as info on football or futsal events, player info (from the campus environment), student achievements in soccer and futsal, soccer equipment and futsal, and football and futsal teams (from the campus environment). Moreover teenagers are now a millennial generation that is very dependent on the internet, the easier it is for them to access the information they need.
