A pharmacist plays an important role in the pharmaceutical industries. Pharmacists must meet competency standards as a requirement for entering the workforce and undergoing professional practice. Indonesian pharmacist competency standards consist of ten (10) competency standards as abilities expected by pharmacists when graduating and entering professional work practices. As a preparation and experience of prospective pharmacists to be able to understand the role of pharmacists and improve competence, the Pharmacist Professional Work Practice is carried out at PT. Medifarma Laboratories for the period March-April 2019. During PKPA it is expected that pharmacist candidates can broaden their horizons , understanding, and experience to do pharmaceutical work in professional workplaces
