Shelters, kiosks, snack bars, market stalls, bus stops, telephone booths, toilets, advertising columns, ticket booths, mobile tents or housing units, emergency shelters, tourist information booths-this list of small, autonomously functioning buildings could be expanded almost infinitely. Small buildings shape our daily lives; they are found at the nearest street corner; they are present and indispensable, but as architecture they attract our attention only rarely. Yet these small structures occupy a definite place in the infrastructure of the city. Rather than focusing on the large attractions.
