Abstrak

Seorang apoteker memiliki peran penting dalam praktek pelayanan kesehatan di rumah sakit dan apotek. Apoteker harus memenuhi standar kompetensi sebagai persyaratan untuk memasuki dunia kerja dan menjalani praktek keprofesiannya. Standar kompetensi apoteker di Indonesia terdiri dari sepuluh standar kompetensi sebagai kemampuan yang diharapkan oleh apoteker saat lulus dan masuk ke tempat praktek kerja profesi. Sebagai bekal dan pengalaman calon apoteker untuk dapat memahami peran apoteker dan meningkatkan kompetensi, maka dilaksanakan Praktik Kerja Profesi Apoteker (PKPA) di RSUP Fatmawati dan Apotek Dini selama periode bulan Februari-Juni 2020. Selama PKPA, calon apoteker diharapkan dapat memperluas wawasan, pemahaman, dan pengalaman untuk melakukan pekerjaan kefarmasian di tempat praktik kerja profesi.

A pharmacist has an important role in health services in hospitals and pharmacies. Pharmacists must meet competency standards as a requirement to enter professional work practice and undergo professional practice. Pharmacist competency standards in Indonesia consist of ten competency standards as the skills expected by pharmacists when they graduate and enter professional work practices. As a provision and experience for prospective pharmacists to be able to understand the role of pharmacists and improve competence, an internship was carried out at RSUP Fatmawati and Apotek Dini during the period February-June 2020. During internship, prospective pharmacists are expected to broaden their horizons, understanding, and experience doing pharmaceutical work in a professional work practices.
